Diabetes is on the rise in countries all over the world. Today, 425 million people worldwide are estimated to be affected by diabetes. This alarming number is even projected to increase to some 629 million in 2045.

In the light of these alarming figures diabetes is undoubtedly one of the most challenging health problems of the 21st century.

EASD is one of the largest networks for diabetologists worldwide with the mission to promote excellence in diabetes care through research and education.

EASD Membership is open to health care professionals, scientists and other professionals such as assistants, nurses, as well as students, from all over the world who are interested in the field of diabetes.

“I originally joined for professional reasons but quickly realised that EASD offers much more. Through EASD I have expanded my professional network and joined a community of passionate peers that is not just shaping the future of diabetes research, care and education but also working to ensure that, one day, a life-changing breakthrough will be made.”

Asst. Prof. Dario Rahelić, Croatia
Become a member of EASD and join our powerful global community committed to tackle and eventually eradicate diabetes.
